

PRODUCT INFOSHEET

Akkadian Console™

Intuitive Call Handling for CUCM

Our operator console provides a complete, easy-to-setup and easy-to-use tool for managing incoming calls for CUCM. Busy operators and receptionists in high volume environments at hundreds of companies love the clean modern interface.

- **Easy for operators to learn** — minimal training time
- **Customizable workspace** — including shared and private notes
- **Multi-source directory** — quickly direct calls where they need to go. Support for CUCM, LDAP, CSV, SQL and MySQL sources
- **Rapid installation and streamlined administration**
- **Flexible deployment options** — makes it easy for administrators to deploy and maintain
- **Powerful integrations** — with Microsoft Office 365 and HL7

Business Benefits

- Improved customer satisfaction
- Employee productivity
- Efficient use of IT/Telephony dept. resources
- Resource utilization reports

Flexible Deployment Options

- **Unmanaged client**
Lightweight and serverless for rapid deployment
- **Managed**
Client/server model for centralized management and reporting
- **Web-based**
For multi-platform support. Run from any browser, across OSs

Simplified Call Handling from a Flexible Console

Key Features

Easy to Learn

Our clean, modern interface is intuitive and makes multi-tasking easy.

Customizable Dashboard

Operators love how customizable their dashboards can be. Operators can even change font sizing.

Drag-and-Drop Call Handling

With a click of the mouse, operators can direct calls by dragging and dropping incoming calls.

Speed Dials

Unlimited speed dial groups allow operators to organize and access important contacts.

Multiline Support

Akkadian Console consolidates the most complex phones into one user interface.

Line Status

Colored line statuses include available, ringing, and busy states.

Multiple Language Options

Operators may opt for the English, Spanish, or French versions.

Private and Shared Notes

Operators use their notes to track employee schedules and call information.

System Requirements

Cisco Unified Communications Manager

- CUCM versions 14+
- BE6K, BE7K version 10.x to 12.x
- IP access to CUCM

Unmanaged Client
