Akkadian Labs®

Simple.
Seamless.
Unified.

Akkadian Provisioning Manager™

Microsoft Teams   Microsoft 365
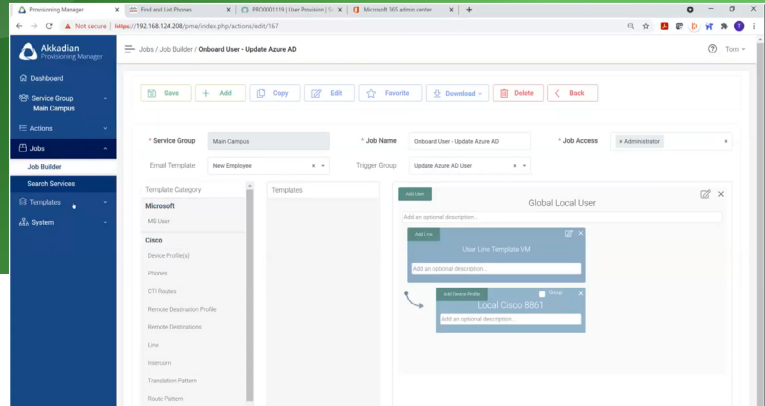

Automated Provisioning for Microsoft Teams

As the fasted growing unified communications platform, UC engineers need a tool to streamline the repetitive manual, error-prone workflows related to provisioning users in Microsoft Teams. Our easy-to-use, turnkey solution streamlines Microsoft Teams administration by automating moves, adds, changes and deletes. Get simple, fast and secure provisioning of users for all your UC applications from a single pane of glass.

FEATURE	BENEFIT
Unified workflows across multiple UC applications	▪ Automation and digital transformation ▪ Simplified MACDs and streamlined administration
Role-based access to delegate tasks to your operations team	▪ Risk mitigation and security ▪ Free up IT to work on strategic projects
Native integration with Microsoft Active Directory and ServiceNow	▪ Zero-touch provisioning ▪ Improved SLA's
Direct routing configuration support	▪ Eliminates the need to run Powershell scripts
Directory number management to automatically select the first available number	▪ No more manual tracking of numbers ▪ Works across Microsoft and Cisco UC platforms
Bulk provisioning to add or delete multiple users from one CSV file	▪ Reduce an hours-long task to minutes

MICROSOFT PRODUCT SUPPORT

▪ Meetings and conferencing
▪ Teams Phone
▪ Chat and collaboration
▪ Microsoft 365

USE CASES

▪ Full-cycle, zero-touch on-boarding
▪ Streamline MACDs
▪ Delegate tasks to your operations team

▪ Direct routing configuration
▪ Directory number management

Key Features

Automation

Eliminate manual tasks from UC provisioning, reporting, compliance, and management.

Bulk Provisioning

Add or delete multiple users from one CSV file.

API Triggers

Automatically update systems outside of your UC.

Roles-based Access

Decide who has access to which jobs and tools. Custom dashboards.

High Availability

Automated roll-over to maximize uptime.

Zero-touch Provisioning

Native integration with Microsoft Active Directory and ServiceNow.

Directory Number Management

Real-time directory number management with cross-cluster support.

Direct Routing

Easily configure support for inbound calling with no Powershell scripting.

Migration Tool

Easily map and copy data from Cisco Collaboration to Microsoft Teams.
