

# Managing your UC environment is too complex. Uncomplicate IT.

Native provisioning, lifecycle management, and policy enforcement across your collaboration stack create drag, risk, and costly rework. Akkadian replaces that complexity with a **collaboration lifecycle and automation platform purpose-built for enterprise-scale governance and operational efficiency.**

Akkadian centralizes and automates every move, add, change, delete, and migration from a single governance layer **with a proven ROI.**

Trusted by the world's largest enterprises, healthcare systems and government agencies, Akkadian delivers governed workflows, lifecycle automation, and operational control that works in leading collaboration environments.

## HOW CAN AKKADIAN IMPACT YOUR BUSINESS?

# 90%+

Less Provisioning Time

# Zero

Manual Handoffs Required

# 100%

Governance

# 1

Unified Control Plane

 Automated User Lifecycle Management	 Roles-Based Access Control
 Cloud & Platform Migration Automation	 Self-Service Portal
 Zero-Touch Provisioning	 Audit, Compliance & Change Visibility
 Centralized Multi-Platform Control	 Operational Resilience
 Workflow Automation & Orchestration	 Extensible Platform

# Key Capabilities

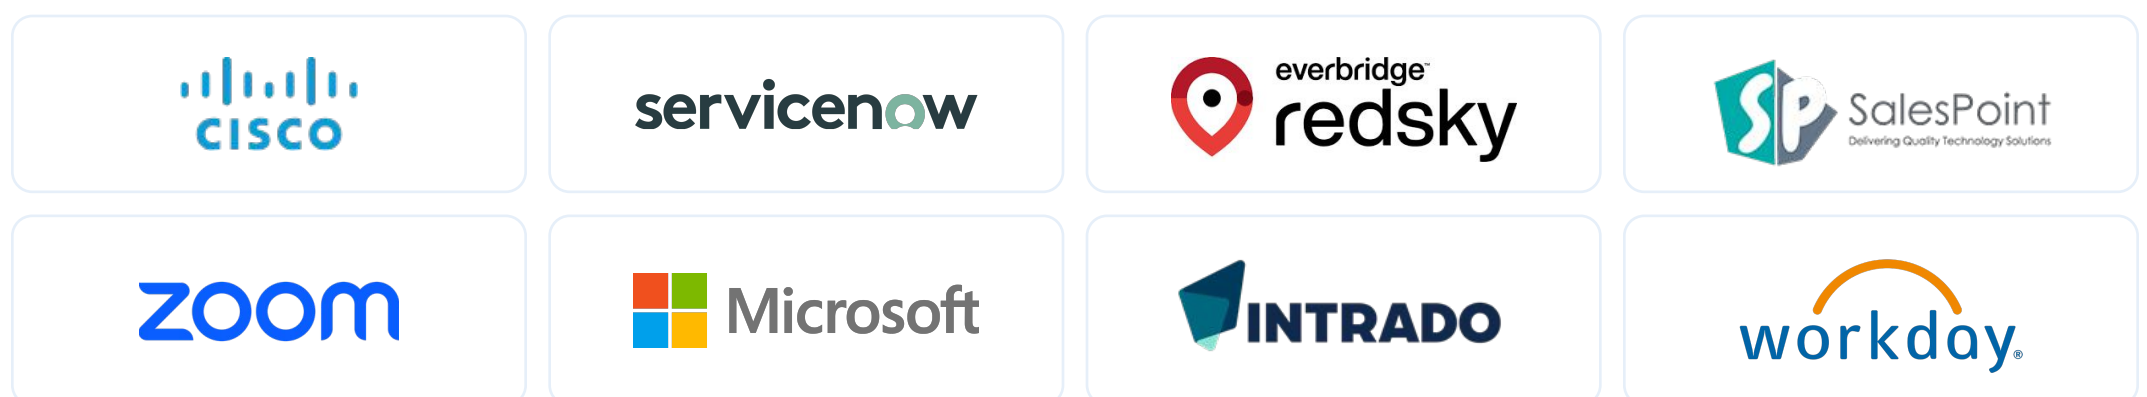

-  **API Triggers**  
Automatically update systems outside of your UC.
-  **Automated Lifecycle Management**  
Every hire, transfer, and departure handled automatically from a single workflow trigger. Zero manual handoffs.
-  **No-Code Zero-Touch Provisioning**  
Native integration with Microsoft Active Directory and ServiceNow.
-  **Policy & Self Service-Driven Governance**  
Let employees provision themselves and manage their own lines, intercoms, and speed dials—with governance enforcement and audit trail.
-  **Directory Number Management**  
Real-time directory number management with cross-cluster support.
-  **Remote Phone Control**  
Access phones to test, place calls, and change settings.

-  **RBAC Security**  
Decide who has access to which jobs and tools. Custom dashboards.
-  **Visual Phone Editor**  
You can even let end users do it themselves via the self-service portal.
-  **Migration**  
Plan and execute migrations with full visibility before anything moves—plus post-migration validation.
-  **Dial Plans**  
Query reporting allows you to easily adopt dial plans, like E164.
-  **High Availability**  
Automated roll-over to maximize uptime.

## And more...

- RESTful API
- Bulk Provisioning
- Phone Swap
- Reporting
- Contact Center Provisioning
